A Domestic Equity Fund

Goal: Seeks long-term capital appreciation.

Strategy: The Fund seeks to maximize long-term capital appreciation. Under normal market conditions, the Fund invests at least 80% of its net assets in the common stock of large-capitalization growth companies traded in the U.S. and affords shareholders the opportunity to invest in some of the fastest-growing companies in the U.S. The term “growth company” denotes companies with the prospect of strong earnings, revenue or cash flow growth.

On 4/25/08, the Fund acquired all of the assets of the Rainier Large Cap Growth Equity Portfolio, the Fund's predecessor, pursuant to a reorganization. Performance prior to 4/28/08 reflects the performance of the Fund's predecessor.

Performance reflects a gross annual fund operating expense ratio of 1.47% for Class A shares. The adviser has agreed contractually to reimburse the amount by which the expenses attributable to such class of shares exceed 1.35% of average annual net assets. This expense reimbursement shall continue in effect until 7/31/10 and may be terminated after such date. Expenses for other share classes may vary, which will affect returns. Performance figures assume that all distributions are reinvested. Performance quoted without sales charges would be reduced if the sales charges were applied.

For performance data current to the most recent month end, contact your financial professional or call John Hancock Funds at 1-800-225-5291. The performance data contained within this material represents past performance, which does not guarantee future results. The return and principal value of an investment will fluctuate, so that shares, when redeemed, may be worth more or less than the original cost. The Fund's current performance may be higher or lower and is subject to substantial changes.

WHAT YOU SHOULD KNOW BEFORE INVESTING

Large-capitalization stocks as a group could fall out of favor with the market, causing the Fund to underperform investments that focus on small- or medium-capitalization stocks. Similarly, growth stocks could underperform value stocks. Foreign investments carry additional risks, including currency fluctuations, differences in accounting standards and political instability.

A fund's investment objectives, risks, charges and expenses should be considered carefully before investing. The prospectus contains this and other important information about the Fund. To obtain a prospectus, contact your financial professional, call John Hancock Funds at 1-800-225-5291 or visit our Web site at www.jhfunds.com. Please read the prospectus carefully before investing or sending money.

⁶ Listed holdings do not represent all of the holdings in the Fund. Holdings are subject to change at any time and are not recommendations to buy or sell any security. Characteristics are expressed as a percentage of net assets. Ten Largest Holdings excludes cash and cash equivalents.

⁷ The portfolio turnover is from the Fund's most current annual report and is subject to change. Please see the annual report for further details regarding the turnover ratio.

⁸ Source: Morningstar, Inc. Beta is the market risk of the Fund's Class A shares and is based on 3-year performance as of 12/31/09. By definition, the beta of the market (Russell 1000 Growth Index) is 1.00. Accordingly, a fund with a 1.10 beta is expected to perform 10% better than the market in up markets and 10% worse in down markets.

⁹ Source: Morningstar, Inc. Based on Class A shares at NAV for the 3-year period as of 12/31/09. Standard deviation measures performance fluctuation — generally, the higher the standard deviation, the greater the expected volatility of returns. These measures of past risk are not completely or necessarily representative of future risk and cannot predict a fund's performance.
