John Hancock Small Cap Intrinsic Value Fund

SUBADVISED BY JOHN HANCOCK ASSET MANAGEMENT

A Domestic Equity Fund

A ■ JHIAX

B ■ JCIBX

C ■ JSICX

I ■ JHIIX

ALL DATA AS OF 12/31/11

MORNINGSTAR STYLE BOX¹

Q4 | 2011

AVERAGE ANNUAL TOTAL RETURNS²

	1-year	3-year	5-year	10-year	Life of Fund (2/28/05)
Without maximum sales charge					
Class A	-22.32%	20.77%	-4.28%	—	2.90%
Russell 2000 Index ³	-4.18%	15.63%	0.15%	—	3.67%
With 5% maximum sales charge					
Class A	-26.21%	18.73%	-5.26%	—	2.13%

The Fund's total annual operating expense ratio as of the current prospectus is 1.52%. Expenses for other share classes will vary, which will affect returns. Performance figures assume that all distributions are reinvested. Performance quoted without sales charges would be reduced if the sales charges were applied. For performance data current to the most recent month end, contact your financial professional or call John Hancock Funds at 1-800-225-5291. The performance data contained within this material represents past performance, which does not guarantee future results. The return and principal value of an investment will fluctuate, so that shares, when redeemed, may be worth more or less than the original cost. The Fund's current performance may be higher or lower and is subject to substantial changes.

GROWTH OF A HYPOTHETICAL \$10,000 INVESTMENT²

Class A without sales charge — 2/28/05 to 12/31/11

Why John Hancock Funds?

► Extensive Research, Proven Managers

Our investment team conducts ongoing research to identify proven managers who have specialized expertise in their respective asset class or strategy and who meet our requirements for performance, style consistency and risk management. As a result, we give you access to an impressive roster of institutional asset managers not typically available to retail investors.

► A Focus on Your Success

We are committed to you and your success. Our ultimate objective is to help you achieve your long-term financial goals.

► A Brand You Know and Trust

John Hancock has been helping individuals and institutions build and protect wealth since 1862. At a time when trust and confidence are at a premium, we are proud to offer a full range of investment strategies that carry one of America's strongest and most recognized corporate brands.

YEAR-BY-YEAR TOTAL RETURNS² (%) — CLASS A WITHOUT SALES CHARGE

2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
—	—	—	17.28 ⁴	28.99	9.91	-58.50	67.87	35.09	-22.32

1 The Morningstar Style Box reveals the Fund's investment style. For equity funds, the vertical axis shows the market capitalization of the stocks owned and the horizontal axis shows investment style (value, blend or growth).
 2 Performance results reflect any expense reductions. Without these reductions, performance would have been less favorable.
 3 The Russell 2000 Index measures the performance of the 2,000 smallest companies in the Russell 3000 Index. It is not possible to invest directly in an index.
 4 Results since inception (not annualized).

John Hancock Small Cap Intrinsic Value Fund

Q4 | 2011

KEY FACTS

- ▶ John Hancock Asset Management has provided investment advisory services for over 25 years, with expertise in global equity and global fixed-income investing.
- ▶ The management team looks for companies that have identifiable catalysts for growth, such as new products, business restructurings or mergers.
- ▶ Small companies often have proprietary products or services or operate in a dynamic field, giving them greater potential for rapid earnings growth.

WHAT YOU SHOULD KNOW BEFORE INVESTING

The prices of medium and small company stocks can change more frequently and dramatically than those of large company stocks. Value stocks may not increase in price as anticipated or may decline further in value. Foreign investing, especially in emerging markets, has additional risks, such as currency and market volatility and political and social instability. The use of hedging and derivatives transactions could produce disproportionate gains or losses and may increase volatility and costs. For additional information on these and other risk considerations, please see the Fund's prospectus.

A fund's investment objectives, risks, charges and expenses should be considered carefully before investing. The prospectus contains this and other important information about the Fund. To obtain a prospectus, contact your financial professional, call John Hancock Funds at 1-800-225-5291 or visit our Web site at www.jhfunds.com. Please read the prospectus carefully before investing or sending money.

⁵ Listed holdings do not represent all of the holdings in the Fund. Holdings are subject to change at any time and are not recommendations to buy or sell any security. Characteristics are expressed as a percentage of net assets and exclude cash and cash equivalents.

⁶ The portfolio turnover is from the Fund's most current annual report and is subject to change. Please see the annual report for further details regarding the turnover ratio.

⁷ Source: Morningstar, Inc. Beta is the market risk of the Fund's Class A shares and is based on 3-year performance as of 12/31/11. By definition, the beta of the market (as represented by the stated benchmark) is 1.00. Accordingly, a fund with a 1.10 beta is theoretically expected to have 10% more volatility than the market.

⁸ Source: Morningstar, Inc. Based on Class A shares at NAV for the 3-year period as of 12/31/11. Standard deviation measures performance fluctuation — generally, the higher the standard deviation, the greater the expected volatility of returns. These measures of past risk are not completely or necessarily representative of future risk and cannot predict a fund's performance.
